**DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action or the MPEP.

***Reissue Oath/Declaration***

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Since the original oath set forth an error that is no longer being corrected, the supplemental oath must specifically set forth an error that IS being corrected. For applicant's convenience, portions of MPEP 1414.01 that are pertinent to the reissue oath are reproduced below. See below. Since the conditions of (B) are not met, the supplemental oath must set forth an error.

**WHEN AN ERROR MUST BE STATED IN THE SUPPLEMENTAL  
OATH/DECLARATION**

In the supplemental reissue oath/declaration, there is **no need to state an error** which is relied upon to support the reissue application **if**:

- (A) an error to support a reissue has been previously and properly stated in a reissue oath/declaration in the application, and
- (B) that error is still being corrected in the reissue application.

Applicant should also note this pertinent section:

Art Unit: 3762

A different situation may arise where the initial reissue oath/declaration does properly identify one or more errors under 35 U.S.C. 251 as being the basis for reissue, however, because of changes or amendments made during prosecution, none of the identified errors are relied upon any more. A supplemental oath/declaration will be needed to identify at least one error *now* being relied upon as the basis for reissue, even though the prior oath/declaration was earlier found proper by the examiner. The supplemental oath/declaration need *not* also indicate that the error(s) identified in the prior oath(s)/declaration(s) is/are no longer being corrected. In this instance, applicant's submission of the supplemental reissue oath/declaration to obviate the rejection under 35 U.S.C. 251 can, at applicant's option, be deferred until the application is otherwise in condition for allowance. The submission can be deferred because a proper statement of error was provided in the initial reissue oath/declaration. Applicant need only request that submission of the supplemental reissue oath/declaration be deferred until allowance, and such a request will be considered a complete reply to the rejection.

See also section in MPEP 1414, II, (B) and (C) for help in what the "at least one error" should comprise. Applicant must "identify a single word, phrase or expression."

Claims 1, 3-23 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175. The nature of the defect(s) in the oath is set forth in the discussion above in this Office action.

If applicant cannot locate one or more of the inventors to sign yet another oath, applicant should note the section of MPEP 1414.01, reproduced below for applicant's convenience, which provides for this situation.

If a joint inventor refuses or cannot be found or reached to sign a supplemental oath/declaration, a supplemental oath/declaration listing all the inventors, and signed by all the available inventors may be filed provided it is accompanied by a petition under 37 CFR 1.183 along with the petition fee, requesting waiver of the signature requirement of the nonsigning inventor.

Form PTO/SB/51S, Supplemental Declaration For Reissue Patent Application To Correct "Errors" Statement (37 CFR 1.175), may be used to prepare a supplemental reissue declaration.

### **Conclusion**

This office action is being made final in view of the instructions set forth in MPEP 1444, pertinent portion of which is copied below:

As noted above, the examiner will issue a final Office action where the application is otherwise in condition for allowance, and amendments or other corrections of error in the patent have been made subsequent to the last oath/declaration filed in the application. The examiner will be introducing (via form paragraph 14.05.02) a rejection into the case for the first time in the prosecution, when the claims have been determined to be otherwise allowable. This introduction of a new ground of rejection under 35 U.S.C. 251 will not prevent the action from being made final on a second or subsequent action because of the following factors:

- (A) The finding of the case in condition for allowance is the first opportunity that the examiner has to make the rejection;
- (B) The rejection is being made in reply to, i.e., was caused by, an amendment of the application (to correct errors in the patent);
- (C) All applicants are on notice that this rejection will be made upon finding of the case otherwise in condition for allowance where errors have been corrected subsequent to the last oath/declaration filed in the case, so that the rejection should have been expected by applicant; and
- (D) The rejection will not prevent applicant from exercising any rights to cure the rejection, since applicant need only submit a supplemental oath/declaration with the above-described language, and it will be entered to cure the rejection.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3762

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
